COURSE DESCRIPTION

Welcome to Experimental Filmmaking, what hopefully will be a pivotal course in your cinematic evolution. Experimental film is often described as cinematic poetry, sometimes as a fever dream, but is always an experience outside “traditional” narrative filmmaking boundaries. Make no mistake, experimental filmmaking techniques have informed and pushed the full scope of motion picture media evolution, from traditional Hollywood narrative film to commercials, documentary and music video (and even cat-videos!>) In this production-based class, through lectures and screenings, you will be exposed to groundbreaking filmmakers and their work. Ultimately, you will be pushed to break free of traditional cinematic boundaries and play with the film form (except we’re using digital video:) through non-traditional means—*sculpt light and sound and redefine time in an attempt to discover something about film and yourself as a creator*. Experimental filmmaking comes with a lot of freedom, but know it can be much more challenging than traditional narrative filmmaking that is centered on standard form and tropes. *Bottom line, I sincerely hope you’re excited to be here and to get at least a wee-bit “out there.”*

LEARNING OUTCOMES

- » UNDERSTAND the language of experimental cinema as it relates to the sculpting of light and sound to express a theme or portray a time-oriented energy.
- » ANALYZE experimental film’s history and connections to the evolution of all forms of motion-picture media.
- » EVALUATE work through contextual-based critique.
- » APPLY experimental techniques to film exercises and projects.
- » CREATE original experimental material for demo reels and film festivals.

PREREQUISITES

DC 210 – Digital Cinema Production 1***

DC 220 – Editing 1***

***Or Graduate Course Equivalent

REQUIRED TEXT

- » **DESIRE2LEARN** (D2L): Readings will be posted on D2L under CONTENT in folders that correspond to the class number. These readings are meant to supplement the lectures.

REQUIRED SUPPLIES

- » **EXTERNAL HARD DRIVE:** You will need some form of external drive to store your project files on. You will need at least 500gb of free space. CDM’s classroom computers have USB & Thunderbolt ports, so I would suggest your drive is compliant. I would recommend a Thunderbolt connection, a Firewire 800 to Thunderbolt connection via adapter, and/or USB 3.0. A USB 2.0 connection will likely not be fast enough to edit much of what you create in this class. If it is an HDD drive, I would recommend it being 7200 rpms. You will use this drive for this class and beyond. PLEASE NOTE, YOU ARE RESPONSIBLE FOR BACKING UP ALL OF YOUR WORK!

CLASS EQUIPMENT ACCESS***

Students are allowed to use the following equipment for this class: JVC Camera, Canon XF100, Canon DSLR, Canon C100, wired and wireless laves, standard and specialty shotguns, handheld mics, handheld recorders, Sound Devices mixers and recorders, all tripods, Fiillex LED Kits and Arri Kits. All of this (with the exception of the Arri Kits) can be accessed through "The Cage."

****If you wish to use any other equipment, you are required to fill out a "Special Request" Form at The Cage. If you take this step, do this as far in advance as you can and please be nice to those hardworking folks.*

PRODUCTION RESOURCES

A great place to obtain ROYALTY FREE MUSIC for student work is at **FreePlayMusic.com**. Simply put your selected music in the shopping cart and select STUDENT or YOUTUBE project and it's FREE!

A great actor resource is through DePAUL's ACTOR DATABASE. Working with friends is one thing, but working with trained actors can take your work and your experience to the next level. Simply go here: <http://www.cdm.depaul.edu/Current%20Students/Pages/Production-Resources.aspx> - under CASTING & CREW

DePaul has negotiated a great rate with ADOBE CREATIVE CLOUD, a tremendous production resource. Find out more information here: Students can purchase Creative Cloud for about \$10 here: <http://offices.depaul.edu/is/services/Software/Pages/Software-for-Personal-Computers.aspx> <<http://offices.depaul.edu/is/services/Software/Pages/Purchasing-Software-for-Personal-Computers-Kivuto-Students.aspx>

ASSIGNMENTS / GRADING***

» **ATTENDANCE & PARTICIPATION**: 15% (Individual)

You must attend class for your benefit, and that of your peers. This class is driven by the interaction of classmates during critique and to inspire creativity.

» **FILM + GUEST ARTIST JOURNAL**: 15% (Individual)

This is a journal of reactions to films screened in class and guest artists' work. You are required to write about 50% of the class screenings and all guest artists and their work. UNDERGRADS will be required to write at least one paragraph per film.

» **"ALTERED IMAGE" FILM**: 15% (Individual)

This is a short film that should feature images altered during production.

» **"CINEMATIC SUBVERSION" FILM**: 15% (Individual)

This is a short film that should featured subverted content meaning through design and assembly, dissonance, juxtaposition and/or formalized "submission" technique.

» **"FESTIVAL" FILM PITCH** : 5% (Individual or Group)

This is a pitch for your final film project—the "Festival" Film. Your pitch should be a brief abstract of your film's form and intent, as well as audio and visual examples that inspire your creative vision.

» **"FESTIVAL" FILM**: 35% (Individual or Group)

The cornerstone of this class will be the creation of a final short experimental film of your choosing that is intended for film festival entry and distribution (a Vimeo Site should also be established to promote your cinematic work).

A = 100-93, A- = 92.9-90, B+ = 89.9-87, B = 86.9-83, B- = 82.9-80, C+ = 79.9-77, C = 76.9-73, C- = 72.9-70, D+ = 69.9-67, D = 66.9-63, D- = 62.9-60, F = 59.9+Below.

"A" indicates Excellence, "B" indicates Very Good, "C" indicates Satisfactory, "D" indicates Poor, "F" indicates the student has NOT accomplished the objectives of the course.

GRADING POLICY

Professional filmmakers must adhere to strict deadlines. Students are expected to turn in all assignments by the established deadlines. **LATE WORK WILL NOT BE ACCEPTED.** I will not accept the excuse of technological failure or absent-mindedness (you all have phones...set alarms for due dates). ***Back up your work and do not leave your work until the last second!*** This is your warning. All grades will be kept current on D2L.

ATTENDANCE POLICY

You are expected to be on time, and if you plan on missing or being late to a class are expected to e-mail the instructor **BEFORE** that particular class starts. The instructor reserves the right to determine whether an absence or tardy is “excused.” Unexcused absences or tardiness will negatively affect your grade. *Please see **Course Policies as Suggested by the Dean of Students Office** at the end of the syllabus to see how your grade will be affected.* Attendance will be kept current on D2L. *If you want to question a recorded absence or tardiness, it must be done within a week of the recorded occurrence.*

COMPUTER / CELLPHONE / I-PAD ELECTRONIC DEVICE POLICY

If you are using any personal or school electronic equipment during class for anything other than class-related work, ***you will be asked to leave and will be counted as absent for that class.***

E-MAIL POLICY

You are expected to read all e-mails from the class instructor because you are responsible to know the information they contain. *So, you should check your e-mail at least once every 24 hours!*

Please type **EXPERIMENTAL** in the subject of all e-mails to the instructor about this class. Please **DO NOT JUST REPLY** to my all-class e-mails because your response might get lost in the shuffle—*Send me an individual e-mail. I will do my best to get back to you in short-order, but please allow up to 24hrs for the instructor to respond.*

PROJECT FILE LABELING + FORMAT POLICY

Label all movie files as such (ex. Student is CHICK STRAND and she is turning in the “ALTERED IMAGE” FILM): **STRAND_ALTERED IMAGE**

All project movies should be submitted in **H.264.mov** format! ***Projects NOT submitted in the proper format WILL NOT BE ACCEPTED.***

ASSIGNMENT SUBMISSION POLICY

All work submitted for this class should be original work made specifically for this class. If you are found to be submitting work you have made for another class you will receive zero credit for that particular assignment.

I will grade the first project file that is submitted. Check and double-check the work you are submitting. Do not submit the wrong file, an incomplete file, a corrupted file, etc. Submit the correct project file by each deadline. Most work will be submitted through D2L Dropbox. Do not leave this until the last second—upload several hours before the deadline to be safe! *Again, no late work is accepted! AND you should always double-check that your file has been successfully uploaded to D2L!*

FILM + VIDEO CONTENT “TRIGGER” WARNING:

A full spectrum of award-winning film and video content will be shown in class with the hope that it will inform, enlighten and inspire you. If you are highly sensitive to any particular kind of cinematic content, please inform the instructor via email ASAP and you will be excused from watching said content.

WORK WITH CAUTION & RESPECT THE SCHOOL’S EQUIPMENT & POLICIES

Film/video production areas in general can be hazardous. First and foremost, make sure you work safely. Have spotters holding ladders, always making sure you have someone to help you out in rigging situations. And remember, the lights get extremely hot so wear gloves when working with them. And all lighting runs off of electricity (AMPS=Watts/Volts), so you must always look out for potentially hazardous situations. On set, make sure all cables are kept orderly and run along walls, under furniture, and are properly secured to ensure no harm comes to yourselves or the school’s equipment. And never leave the equipment in a car. One it can get stolen, but two temperature extremes are very hard on equipment. *Remember, if you lose or damage the school’s equipment, you will need to pay for its replacement (See-Check Out Policy).* And don’t forget to turn in all equipment on time or you will be subject to fines! And please respect the school’s property and your shooting locations. Mounting, rigging, taping etc. can all cause damage to property, so work with the utmost caution and care. And finally, there is a lot of heavy lifting in production, so lift with your knees and get some help—there’s no need to be a hero. The bottom line is THINK BEFORE YOU ACT. Don’t hesitate to ask me if you aren’t sure about something, in or out of class. AND please treat all the equipment room employees with respect! They are busy folks trying to help ensure your shoot is a success. *FINALLY, you must re-read all equipment/school policies/procedures that you must follow that are posted on D2L (they include: 3 PDFs titled Firearms/Filming Policy/Check Out Policy).****

***You should avoid dangerous film activities such as using real weapons of any kind, and/or filming in or from moving cars unless you have clearance and professional supervision.

Note On Requirements (and the Syllabus in General)

This syllabus is subject to change as necessary during the quarter. If a change occurs, it will be thoroughly addressed during class and posted on D2L. AS A MEMBER OF THIS CLASS, YOU ARE REQUIRED TO KNOW AND FOLLOW THE GUIDELINES SET FORTH ON THE TOTALITY OF THIS SYLLABUS. These guidelines are established to ensure all students know what is expected of them, and so all students are treated equally by being held to the same standards.

Online Course Evaluations

Evaluations are a way for students to provide valuable feedback regarding their instructor and the course. Detailed feedback will enable the instructor to continuously tailor teaching methods and course content to meet the learning goals of the course and the academic needs of the students. They are a requirement of the course and are key to continue to provide you with the highest quality of teaching. The evaluations are anonymous; the instructor and administration do not track who entered what responses. A program is used to check if the student completed the evaluations, but the evaluation is completely separate from the student's identity. Since 100% participation is our goal, students are sent periodic reminders over three weeks. Students do not receive reminders once they complete the evaluation. Students complete the evaluation online in [CampusConnect](#).

Academic Integrity and Plagiarism

This course will be subject to the university's academic integrity policy. More information can be found at <http://academicintegrity.depaul.edu/>. If you have any questions be sure to consult with your professor.

Academic Policies

All students are required to manage their class schedules each term in accordance with the deadlines for enrolling and withdrawing as indicated in the [University Academic Calendar](#). Information on enrollment, withdrawal, grading and incompletes can be found at: <http://www.cdm.depaul.edu/Current%20Students/Pages/PoliciesandProcedures.aspx>

Students with Disabilities

Students who feel they may need an accommodation based on the impact of a disability should contact the instructor privately to discuss their specific needs. All discussions will remain confidential.

To ensure that you receive the most appropriate accommodation based on your needs, contact the instructor as early as possible in the quarter (preferably within the first week of class), and make sure that you have contacted the Center for Students with Disabilities (CSD) at: csd@depaul.edu.

Course Policies as Suggested by the Dean of Students Office

Attendance: Students are expected to attend each class and to remain for the duration.

Coming 15 minutes late or leaving 15 minutes early constitutes an absence for the student.

The overall grade for Attendance & Participation drops one-third (50pts) after any absence. Three absences for any reason, whether excused or not, may constitute failure for the course.

Class Discussion: Student participation in class discussions will be measured in two ways. First, students are highly encouraged to ask questions and offer comments relevant to the day's topic. Participation allows the instructor to "hear" the student's voice when grading papers. Secondly, students will be called upon by the instructor to offer comments related to the reading assignments. Students must keep up with the reading to participate in class discussion.

Attitude: A professional and academic attitude is expected throughout this course. Measurable examples of non-academic or unprofessional attitude include but are not limited to: talking to others when the instructor is speaking, mocking another's opinion, cell phones ringing, emailing, texting or using the internet whether on a phone or computer. If any issues arise a student may be asked to leave the classroom. The professor will work with the Dean of Students Office to navigate such student issues.

Civil Discourse: DePaul University is a community that thrives on open discourse that challenges students, both intellectually and personally, to be **Socially Responsible Leaders**. It is the expectation that all dialogue in this course is civil and respectful of the dignity of each student. Any instances of disrespect or hostility can jeopardize a student's ability to be successful in the course. The professor will partner with the Dean of Students Office to assist in managing such issues.

Cell Phones/On Call: If you bring a cell phone to class, it must be off or set to a silent mode. Should you need to answer a call during class, students must leave the room in an undistruptive manner. Out of respect to fellow students and the professor, texting is never allowable in class. If you are required to be on call as part of your job, please advise me at the start of the course.
