

## **DC312 Scoring for Film and Video**

**Rob Steel**

**Monday and Wednesday 5:45-9:00pm**

**DePaul CDM 922**

### **General Course Information**

#### **Course description**

This course serves as an introduction to scoring for film and video. The three tracks of study include training on Logic to score video/film, exploring the basic techniques of film scoring and learning how to listen to music within the context of cinema. Students will listen to music in and out of context of film to develop a palette that will serve their work in scoring. Students will also be analyzing film soundtracks that will allow them to understand different techniques and aesthetics in scoring. Students will score several short video clips. Prerequisite: DC 215

This is a lecture/lab course.

#### **Course Management Systems/Tools**

D2L and Lynda.com (Logic Pro X Essential Training with Scott Hirsch)

#### **Tutorials and printed resources**

These materials are available on D2L, via Dropbox download link and Lynda.com.

#### **Software**

Logic X will be the main software we work with in this class. Labs which include Logic X are CDM 526, CDM 922, CDM 9th floor IMacs, C106C and the Editing Suites in the basement of the DePaul Center, and the MAC Lab on the 3<sup>rd</sup> floor of the student center. If you want to score using another DAW, please feel free.

#### **Materials/Equipment**

Students should have their own external Thunderbolt/USB3 drive for their project work for this and other DC classes. The University cannot guarantee that media or projects left on lab computers will be safely maintained.

## Course Policies

### Late Papers/Projects

Due to it being summer, there is a little wiggle room in handing papers and project in. Please let me know if you can't make a deadline.

### Attendance

Students are expected to attend each class and to remain for the duration. **Coming 15 minutes late or leaving 15 minutes early constitutes an absence for the student.** The overall grade for attendance drops 1 point after any unexcused absence. **Four absences for any reason, whether excused or not, will constitute failure for the course.**

### Attitude

A professional and academic attitude is expected throughout this course. Measurable examples of non-academic or unprofessional attitude include but are not limited to: talking to others when the instructor is speaking, mocking another's opinion, cell phones ringing, emailing, texting or using the internet whether on a phone or computer. If any issues arise a student may be asked to leave the classroom. The professor will work with the Dean of Students Office to navigate such student issues.

### Civil Discourse

DePaul University is a community that thrives on open discourse that challenges students, both intellectually and personally, to be Socially Responsible Leaders. It is the expectation that all dialogue in this course is civil and respectful of the dignity of each student. Any instances of disrespect or hostility can jeopardize a student's ability to be successful in the course. The professor will partner with the Dean of Students Office to assist in managing such issues.

### Cell Phones/On Call

If you bring a cell phone to class, it must be off or set to a silent mode. Should you need to answer a call during class, students must leave the room in an undistruptive manner. Out of respect to fellow students and the professor, texting is never allowable in class. If you are required to be on call as part of your job, please advise me at the start of the course.

### Changes to Syllabus

This syllabus is subject to change as necessary during the quarter. If a change occurs, it will be thoroughly addressed during class, posted under Announcements in D2L and sent via email.

### Online Course Evaluations

Evaluations are a way for students to provide valuable feedback regarding their instructor and the course. Detailed feedback will enable the instructor to continuously tailor teaching methods and course content to meet the learning goals of the course and the academic needs of the students. They are a requirement of the course and are key to continue to provide you with the highest quality of teaching. The evaluations are anonymous; the instructor and administration do not track who entered what responses. A program is used to check if the student completed the evaluations, but the evaluation is completely separate from the student's identity. Since 100% participation is our goal, students are sent periodic reminders over three weeks. Students do not receive reminders once they complete the evaluation. Students complete the evaluation online in CampusConnect.

### **Academic Integrity and Plagiarism**

This course will be subject to the university's academic integrity policy. More information can be found at <http://academicintegrity.depaul.edu/>. If you have any questions be sure to consult with your professor.

### **Academic Policies**

All students are required to manage their class schedules each term in accordance with the deadlines for enrolling and withdrawing as indicated in the University Academic Calendar. Information on enrollment, withdrawal, grading and incompletes can be found at: [cdm.depaul.edu/enrollment](http://cdm.depaul.edu/enrollment).

### **Students with Disabilities**

Students who feel they may need an accommodation based on the impact of a disability should contact the instructor privately to discuss their specific needs. All discussions will remain confidential.

To ensure that you receive the most appropriate accommodation based on your needs, contact the instructor as early as possible in the quarter (preferably within the first week of class), and make sure that you have contacted the Center for Students with Disabilities (CSD) at: [csd@depaul.edu](mailto:csd@depaul.edu).
