

Syllabus

CSC 401-920 Introduction to Programming

Spring 2022-2023

Course Management System: D2L (<https://d2l.depaul.edu>)

Online course with weekly deadlines for

- Textbook readings
- Viewing video lectures (voice-over PowerPoint presentations)
- Submitting Assignments, and

proctored midterm and final exams.

INSTRUCTOR INFORMATION

Dolores Kalayta

Office hours: Tuesday, 4:00 – 5:30 | Online only using email or Zoom

Email: dkalayta@depaul.edu

The best way to reach me is through email. I check emails every day and try to check emails regularly throughout the day. If you want to collaborate/discuss a coding issue during my office hours, schedule an appointment in advance using Blue Star that is available in Campus Connect. When you schedule an appointment I will send you a session ID so we can connect online.

COURSE DESCRIPTION

An introduction to programming with a focus on problem solving, structured programming, and algorithm design. Concepts covered include data types, expressions, variables, assignments, conditional and iterative structures, functions, file input/output, exceptions, arrays and introduction to user-defined classes.

This is an online asynchronous class. There are **no face-to-face** class meetings. This is NOT a self-paced class. There are weekly deadlines for readings, video lecture viewings and assignments.

This is a first programming course for students who have never had a term of programming or its equivalent. It is assumed that students have no prior experience with a programming language.

PREREQUISITES

None

TEXTBOOK

Introduction to Computing Using Python, 2nd edition, Ljubomir Perkovic, Wiley 2015, ISBN (ebook): 978-1-118-89105-6; ISBN (paperback): 978-1-118-89094-3

REQUIRED SOFTWARE

Install on your laptop/desktop: Python, version **3.10** or higher. Python is available as a free download from <http://www.python.org/downloads/> and it comes with a simple development environment called IDLE. It is expected that you have the necessary skills to download the software and install on your computer.

IMPORTANT DATES:

Classes begins on	Sat. Mar. 25, 2023
First assignment due date	Tue. Apr. 4, 2023
Last day to drop with no penalty	Mon. Apr. 10, 2023
Proctored Midterm Exam	Fri. Apr. 28, 2023 – Mon. May. 1, 2023**
Last day to withdraw* from class	Fri. May. 12, 2023
Proctored Final Exam	Sat. Jun. 3, 2023 – Tue. Jun. 6, 2023**

*Students who withdraw from the course do so by using the Campus Connect system.

(<http://campusconnect.depaul.edu>). Withdrawals processed via this system are effective the day on which they are made. Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an official withdrawal from class and will result in academic as well as financial penalty.

** Exam dates are tentative and subject to change.

SCHEDULE AS OF 3/12/2023 (SUBJECT TO CHANGE)

Date	Lecture Material (PowerPoint Videos)	Readings & Assignments
0	<ul style="list-style-type: none"> Syllabus – Course Overview (pdf) Computer Systems and Computational Thinking (pdf) Computer Systems (5 min) Computational Thinking (6 min) (Chapter 1) 	Read: <ul style="list-style-type: none"> Chapter 1

Jun. 3 through Jun. 6	<p>Proctored Final Exam (Cumulative with emphasis on material covered in weeks 5 through 10). Saturday, Jun. 3 through Tuesday, Jun. 6.</p>	

NOTE: MINUTES ON ASSIGNMENT REVIEWS AND ASSIGNMENT SOLUTIONS ARE ESTIMATES FROM PREVIOUS QUARTERS. ACTUAL TIME OF THOSE VIDEOS WILL BE UPDATED IN D2L.

ASSIGNMENTS

- There will be 8 assignments.
- All assignment descriptions and requirements will be posted in D2L only.
- Each assignment will have a specific due date and time
- All assignments must be submitted via D2L Submissions.
- Late submission of assignments will **not** be accepted. If you wish to receive partial credit for an assignment, you must submit the work completed (with no syntax errors and executable code) by the due date deadline.
- The lowest assignment grade will be dropped.

GRADING

Weights:

Assignments (Homework): 35%

Proctored Midterm Exam: 30%

Proctored Final Exam: 35%

Grading scale:

Grade	Percentage
A	100 – 93
A-	92 – 90
B+	89 – 87
B	86 – 83
B-	82 – 80

Grade	Percentage
C+	79 – 77
C	76 – 73
C-	72 – 70
D+	69 – 67
D	66 – 60
F	59 – 0

GRADING NOTE: A score of below 50% on the final exam cannot result in a course letter grade above C-.

EXAMS

Exams will be administered on D2L and proctored using Examity. Examity is an online proctoring service that uses your webcam and microphone on your computer to proctor the online exam.

Students must register for online proctoring at least one week prior to the exam date using the link that will be available in D2L. Note the following requirements for using Examity:

- You must take the exam on a desktop computer or a laptop (but, NOT a tablet, NOR a smartphone).
- Your Internet speed must be at least 3Mbps download and 3Mbps uploads to be able to take the online exam on D2L, and be proctored by Examity. Determine your Internet speed by running a test at <http://www.speedtest.net>.
- The recommended web browsers to use for the online exams on D2L are Firefox and Chrome.

- You must have a working built-in or external webcam, a microphone, and working built-in or external speakers for the Examity proctor to proctor your exam online (they will communicate with you and watch you during the exam).
- The Examity proctored exam cannot be taken in public spaces, such as a library.
- Examity will record the whole exam session (voice and video), including your computer screen during the exam. All of the recording will be reviewed by a second person after the exam and will be flagged for suspicious activities. All the recordings and the flags will be shared with the professor for review and grading considerations.
- Internet searches are not allowed during the exams.
- Interacting with anyone other than the Examity proctor is not allowed during the exam.

Make-up exams will not be given. If exceptional circumstances arise, please contact your instructor as soon as possible before the exam to discuss alternative scheduling arrangements.

SCHOOL POLICIES:

- **Changes to Syllabus**
This syllabus is subject to change as necessary during the quarter. If a change occurs, it will be thoroughly addressed during class, posted under Announcements in D2L and sent via email.
- **Online Course Evaluations**
Evaluations are a way for students to provide valuable feedback regarding their instructor and the course. Detailed feedback will enable the instructor to continuously tailor teaching methods and course content to meet the learning goals of the course and the academic needs of the students. They are a requirement of the course and are key to continue to provide you with the highest quality of teaching. The evaluations are anonymous; the instructor and administration do not track who entered what responses. A program is used to check if the student completed the evaluations, but the evaluation is completely separate from the student's identity. Since 100% participation is our goal, students are sent periodic reminders over three weeks. Students do not receive reminders once they complete the evaluation. Students complete the evaluation online in [CampusConnect](https://campusconnect.depaul.edu) (<https://campusconnect.depaul.edu>).
- **Academic Integrity and Plagiarism**
This course will be subject to the university's academic integrity policy. More information can be found at <http://academicintegrity.depaul.edu/>. If you have any questions be sure to consult with your professor.
All students are expected to abide by the University's Academic Integrity Policy which prohibits cheating and other misconduct in student coursework. Publicly sharing or posting online any prior or current materials from this course (including exam questions or answers), is considered to be providing unauthorized assistance prohibited by the policy. Both students who share/post and students who access or use such materials are considered to be cheating under the Policy and will be subject to sanctions for violations of Academic Integrity.
- **Academic Policies**
All students are required to manage their class schedules each term in accordance with the deadlines for enrolling and withdrawing as indicated in the [University Academic Calendar](#).

(<https://academics.depaul.edu/calendar/Pages/default.aspx>). Information on enrollment, withdrawal, grading and incompletes can be found at <http://www.cdm.depaul.edu/Current%20Students/Pages/PoliciesandProcedures.aspx>.

- Students with Disabilities

Students who feel they may need an accommodation based on the impact of a disability should contact the instructor privately to discuss their specific needs. All discussions will remain confidential.

To ensure that you receive the most appropriate accommodation based on your needs, contact the instructor as early as possible in the quarter (preferably within the first week of class), and make sure that you have contacted the Center for Students with Disabilities (CSD) at:

Lewis Center 1420, 25 East Jackson Blvd.

Phone number: (312)362-8002

Fax: (312)362-6544

TTY: (773)325.7296
