- **Course Description**

This class is an introduction to the uses and practical applications of sound for multimedia. Students will study various uses of sound and music on the Internet from creative to professional websites. Using free or inexpensive hardware and software, students will learn to create and edit podcasts and attach audio files to programs and web pages such as Facebook, iTunes, Keynote, PowerPoint and other sites. The course will cover both Mac and PC applications so all students will be able to work on projects from their home computers. The course will also cover current legalities of digital media.

Learning Domain Description:

DC 113: Audio Podcasting & Other Media is included in the Liberal Studies program as a course with credit in the Arts and Literature domain. Courses in the Arts and Literature domain ask students to extend their knowledge and experience of the arts by developing their critical and reflective abilities. In these courses, students interpret and analyze particular creative works, investigate the relations of form and meaning and through critical and/or creative activity to come to experience art with greater openness, insight, and enjoyment. These courses focus on works of literature, art, theatre, or music as such, though the process of analysis may also include social and cultural issues. Students who take course in this domain choose three courses from such choices as literature, the visual arts, media arts, music, and theater. No more than two courses can be chosen from one department or program.

Learning Outcomes:

In **DC 113**, students will:

1. Listen to a variety of podcasts and analyze them in terms of quality, style, format, and genre.
2. Operate a USB microphone and utilize a digital audio workstation.
3. Investigate current trends in Digital Rights Management, P2P Networking, Internet Privacy/Regulation, Copyright, and Intellectual Property Rights.
4. Write, record, and edit several original podcasts that demonstrate efficient storytelling and technical expertise.
5. Learn the role of audio and podcasts in social media, presentations, and online feeds.

How Learning Outcomes Will Be Met

1. Papers 1-2 focus upon the analysis of a variety of podcasts in order to understand what makes the podcasts work in terms of: Content, Style, format, and genre. This will help improve the quality of the podcast that is created within the class
2. Projects 1-4 will be staged with varying length to incorporate the techniques required for creating a professional quality podcast. This includes covering the process of : Editing dialog, balancing the mix, utilizing plugins (EQ, Compression, Noise Removal), and the

practicality of microphone placement for recording. Through the continued refinement of their podcast the student will gain competency in the art of storytelling and working with a Digital Audio Workstation.

3. Paper 3 is a research paper that is assigned with the topic of trends in digital media. This topic is broad in order to urge an understanding of the current issues with Intellectual property, piracy, copyright, and the status of the Internet.

Course Objectives:

By the end of the course, students will be able to:

1. Assess the strengths and weaknesses of various podcasts in terms of its technical and storytelling aspects.
2. Record clean, professional-sounding dialogue at home using a USB microphone.
3. Edit, mix, and export professional, Internet-ready original podcasts.
4. Successfully navigate the basic functions of recording and editing software.
5. Upload and create an original podcast feed using podcast aggregators.
6. Have a basic understanding of the mechanics behind how sound works, and what affect that has upon recording dialog for podcasts.

- **Changes to Syllabus**

This syllabus is subject to change as necessary during the quarter. If a change occurs, it will be thoroughly addressed during class, posted under Announcements in D2L or COLWeb and sent via email.

- **Writing Expectations**

The papers will adhere to APA/MLA format for writing style. The research paper (Paper 5) will require proper citation; grammar and syntax are important and will be graded accordingly.

- **How Writing Expectations Will Be Met**

1. Papers 1-2 are response papers. They are required for the student to begin to think critically about podcasts. Through writing about the podcasts the student will learn to understand how they work, and use that analysis to improve their won recordings.
2. Papers 4 is a podcast plan. These plans will prep the first and final podcast by the students writing out a comprehensive plan of what their podcasts will encompass.

3. Paper 3 is the research paper for the class. This paper requires MLA/APA citation and is put in place for the student to understand the issues surrounding: Intellectual Property, Copyright, Digital Rights Management, and the status of the Internet. This will help foster an understanding of the complexities of podcasting, digital media, and the impact legislation may have upon Fair Use Copyright protection.

Online Course Evaluations

Evaluations are a way for students to provide valuable feedback regarding their instructor and the course. Detailed feedback will enable the instructor to continuously tailor teaching methods and course content to meet the learning goals of the course and the academic needs of the students. They are a requirement of the course and are key to continue to provide you with the highest quality of teaching. The evaluations are anonymous; the instructor and administration do not track who entered what responses. A program is used to check if the student completed the evaluations, but the evaluation is completely separate from the student's identity. Since 100% participation is our goal, students are sent periodic reminders over three weeks. Students do not receive reminders once they complete the evaluation. Students complete the evaluation online in [CampusConnect](#).

Academic Integrity and Plagiarism

This course will be subject to the university's academic integrity policy. More information can be found at <http://academicintegrity.depaul.edu/>. If you have any questions be sure to consult with your professor.

Academic Policies

All students are required to manage their class schedules each term in accordance with the deadlines for enrolling and withdrawing as indicated in the [University Academic Calendar](#). Information on enrollment, withdrawal, grading and incompletes can be found at: cdm.depaul.edu/enrollment.

Students with Disabilities

Students who feel they may need an accommodation based on the impact of a disability should contact the instructor privately to discuss their specific needs. All discussions will remain confidential. To ensure that you receive the most appropriate accommodation based on your needs, contact the instructor as early as possible in the quarter (preferably within the first week of class), and make sure that you have contacted the Center for Students with Disabilities (CSD) at: csd@depaul.edu.
