Course Summary

This course is an introduction to the technical side of Post Production, with an emphasis on finishing and delivery of projects. It will cover the way in which Post Production concerns affect all aspects of a shoot, from pre-production to final archival.

Learning goals

Upon successful completion of this course, students will be expected to:

- Have a working knowledge of formats, codecs and color spaces
- Be able to clean and prep an edited project for professional finishing
- Know how to master, archive and deliver a digital project.

Prerequisites

There are no prerequisites for this course, but some familiarity with After Effects and editing software (especially Adobe Premiere Pro and Avid) would be very useful.

Grading

Please note that late assignments will not be accepted. You must submit on time, even if you are not able to come to class on that particular day.

- Project #1: 15%
- Project #2: 25%
- Final Project: 35%
- Attendance: 25%

Required Supplies: External Hard Drive

All our class exercises and home assignments deal with projects and media. It is the responsibility of the student to back up all projects & all media. Do not leave your projects on the lab computer and always make sure to back up your portable drive to another drive back home. Please note: hardware problems are not acceptable as an excuse for late submissions.

Course Policies

Changes to Syllabus

This syllabus is subject to change as necessary during the quarter. If a change occurs, it will be thoroughly addressed during class, posted under Announcements in D2L and sent via email.

Online Course Evaluations

Evaluations are a way for students to provide valuable feedback regarding their instructor and the course. Detailed feedback will enable the instructor to continuously tailor teaching methods and course content to meet the learning goals of the course and the academic needs of the students. They are a requirement of the course and are key to continue to provide you with the highest quality of teaching. The evaluations are anonymous; the instructor and administration do not track who entered what responses. A program is used to check if the student completed the evaluations, but the evaluation is completely separate from the student's identity. Since 100% participation is our goal, students are sent periodic reminders over three weeks. Students do not receive reminders once they complete the evaluation. Students complete the evaluation online in [CampusConnect](#).

Academic Integrity and Plagiarism

This course will be subject to the university's academic integrity policy. More information can be found at <http://academicintegrity.depaul.edu/>. If you have any questions be sure to consult with your professor.

Academic Policies

All students are required to manage their class schedules each term in accordance with the deadlines for enrolling and withdrawing as indicated in the [University Academic Calendar](#). Information on enrollment, withdrawal, grading and incompletes can be found at: <http://www.cdm.depaul.edu/Current%20Students/Pages/PoliciesandProcedures.aspx>

Students with Disabilities

Students who feel they may need an accommodation based on the impact of a disability should contact the instructor privately to discuss their specific needs. All discussions will remain confidential.

To ensure that you receive the most appropriate accommodation based on your needs, contact the instructor as early as possible in the quarter (preferably within the first week of class), and make sure that you have contacted the Center for Students with Disabilities (CSD) at: csd@depaul.edu.
