

SE 554: Enterprise Component Architecture
Syllabus

Overview

Lecturer:	Mr. Ken Yu
Email:	kyu@cdm.depaul.edu
WWW:	D2L (https://d2l. depaul.edu)
Office Hours	After class (M: 9-10pm) Online (R: 8-10pm)
Required	<i>Enterprise JavaBeans 3.1 – E</i>
Text:	Andrew Lee Rubinger and Bill Burke (isbn: 0596158025)
Optional	<i>Beginning Java EE 7 (2nd Edition) – B</i> Antonio Goncalves (isbn: 143024626X) Check out Safari Books Online from DePaul library (http://proquestcombo.safaribooksonline.com.ezproxy1.lib.depaul.edu/)
Text:	
	JEE7 Tutorial – T (http://docs.oracle.com/javaee/7/tutorial/doc/javaeetutorial7.pdf)
	JEE7 First Cup (http://docs.oracle.com/javaee/7/firstcup/doc/firstcup.pdf)
	Enterprise Integration Pattern (http://www.eaipatterns.com/toc.html)

SE 554: Enterprise Component Architecture

Syllabus

Topics

The topics to be covered included are as follows

- ❑ Application of object-oriented component architecture for enterprise applications leveraging JEE technologies such as
 1. Enterprise JavaBeans (EJB)
 2. Java Naming and Directory Interface (JNDI)
 3. Java Messaging Service (JMS)

Warning: This is a programming course. You are encouraged to experiment with APIs. Not all the APIs will be covered in covered in class. However, the information on how to find such information will be provided.

If you need to be spoon feed every detail, this is not the course for you. Course will provide guidelines and it will be up to you and your team to decide how to research to get additional information you need.

Prerequisites

- SE450 or SE452

Warning: This course is NOT intended as an introduction to programming nor as an introduction to object-oriented programming. Specific knowledge of jdk (javac, javadoc, CLASSPATH) knowledge is assumed. Though we will go over this material VERY quickly in first class.

Syllabus

Schedule

(* may be updated as needed during the course of the quarter ***)**

Schedule	Topic	Reading Covered	Project/HW Milestone
Week 1 1/6	Basic/Overview <ul style="list-style-type: none">Course context/problem domainEnvironment setup	E:3, 2, 1 B: 2	
Week 2 1/13	Persistence <ul style="list-style-type: none">EntityRelationships	E: 9, 10, 11, 12, 13 B: 3, 4 T: 37-44	MS1 Due
Week 3 1/20	Session Beans - Stateless <ul style="list-style-type: none">Packaging/DeploymentClient (Local vs Remote)Container<ul style="list-style-type: none">Interceptors (CDI) /JNDI	E: 4, 5, 16, 18 B: 6 T: 32-33	
Week 4 1/27	Server side component-2 <ul style="list-style-type: none">StatefulContainer<ul style="list-style-type: none">TransactionSecurity	E: 6, 17, 15 B: 5 T: 35, 49 -50	MS2 Due
Week 5 2/3	Midterm		
Week 6 2/10	Asynchronous communication <ul style="list-style-type: none">Message QueueJMS and MDB	E: 8 B: 13 T: 45-46	
Week 7 2/17	Web Services – 1 (SOAP) <ul style="list-style-type: none">JAX-WS	E: 20, 21 B: 14 T: 27-28	MS3 Due
Week 8 2/24	Web Services – 2 (WS-extension) <ul style="list-style-type: none">JAX-WS		
Week9 3/3	Web Services – 3 (REST) <ul style="list-style-type: none">JAX-RS	B: 15 T: 29-31	
Week 10 3/10	Putting it all together		Final submission
Week 11 3/17	Finals		

SE 554: Enterprise Component Architecture

Syllabus

Grading Policy:

The grade break down will be as follows:

Grade Item	Percentage
Midterm	30
Final	35
Project	30
Participation	5

		B+	87-89	C+	77-79	D+	67-69
A	93+	B	83-86	C	73-76	D	63-66
A-	90-93	B-	80-82	C-	70-72	D-	60-62

Participation

Weekly discussion thread must meet both requires

- Meaningful respond to one of the main threads
- Meaningful respond to one of the classmates questions/comments

50% - Participated in 5 weekly discussions

75% - Participated in 7 weekly discussions

100% - Participated in 9 weekly discussions

Syllabus

DePaul General Course Policies

Changes to Syllabus

This syllabus is subject to change as necessary during the quarter. If a change occurs, it will be thoroughly addressed during class, posted under Announcements in D2L and sent via email.

Online Course Evaluations

Instructor and course evaluations provide valuable feedback that can improve teaching and learning. The greater the level of participation, the more useful the results. As students, you are in the unique position to view the instructor over time. Your comments about what works and what doesn't can help faculty build on the elements of the course that are strong and improve those that are weak. Isolated comments from students and instructors' peers may also be helpful, but evaluation results based on high response rates may be statistically reliable (believable). As you experience this course and material, think about how your learning is impacted. Your honest opinions about your experience in and commitment to the course and your learning may help improve some components of the course for the next group of students. Positive comments also show the department chairs and college deans the commitment of instructors to the university and teaching evaluation results are one component used in annual performance reviews (including salary raises and promotion/tenure). The evaluation of the instructor and course provides you an opportunity to make your voice heard on an important issue – the quality of teaching at DePaul. Don't miss this opportunity to provide feedback!

Academic Integrity and Plagiarism

This course will be subject to the academic integrity policy passed by faculty. More information can be found at <http://academicintegrity.depaul.edu/>.

The university and school policy on plagiarism can be summarized as follows: Students in this course should be aware of the strong sanctions that can be imposed against someone guilty of plagiarism. If proven, a charge of plagiarism could result in an automatic F in the course and possible expulsion. The strongest of sanctions will be imposed on anyone who submits as his/her own work any assignment which has been prepared by someone else. If you have any questions or doubts about what plagiarism entails or how to properly acknowledge source materials be sure to consult the instructor.

Withdrawal

Students who withdraw from the course do so by using the Campus Connection system (<http://campusconnect.depaul.edu>). Withdrawals processed via this system are effective the day on which they are made. Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an official withdrawal from class and will result in academic as well as financial penalty.

Retroactive Withdrawal

This policy exists to assist students for whom extenuating circumstances prevented them from meeting the withdrawal deadline. During their college career students may be allowed one medical/personal administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term. Repeated requests will not be considered. Submitting an appeal for retroactive withdrawal does not guarantee approval.

SE 554: Enterprise Component Architecture

Syllabus

College office appeals for CDM students must be submitted online via MyCDM.

The deadlines for submitting appeals are as follows:

Autumn Quarter: Last day of the last final exam of the subsequent winter quarter
Winter Quarter: Last day of the last final exam of the subsequent spring quarter
Spring Quarter: Last day of the last final exam of the subsequent autumn quarter
Summer Terms: Last day of the last final exam of the subsequent autumn quarter

Excused Absence

In order to petition for an excused absence, students who miss class due to illness or significant personal circumstances should complete the Absence Notification process through the Dean of Students office. The form can be accessed at <http://studentaffairs.depaul.edu/dos/forms.html>. Students must submit supporting documentation alongside the form. The professor reserves the sole right whether to offer an excused absence and/or academic accommodations for an excused absence.

Incomplete

An incomplete grade is a special, temporary grade that may be assigned by an instructor when unforeseeable circumstances prevent a student from completing course requirements by the end of the term and when otherwise the student had a record of satisfactory progress in the course. CDM policy requires the student to initiate the request for incomplete grade before the end of the term in which the course is taken. Prior to submitting the incomplete request, the student must discuss the circumstances with the instructor. Students may initiate the incomplete request process in [MyCDM](#).

- All incomplete requests must be approved by the instructor of the course and a CDM Associate Dean. Only exceptions cases will receive such approval.
- If approved, students are required to complete all remaining course requirement independently in consultation with the instructor by the deadline indicated on the incomplete request form.
- By default, an incomplete grade will automatically change to a grade of F after two quarters have elapsed (excluding summer) unless another grade is recorded by the instructor.
- An incomplete grade does NOT grant the student permission to attend the same course in a future quarter.

Students with Disabilities

Students who feel they may need an accommodation based on the impact of a disability should contact the instructor privately to discuss their specific needs. All discussions will remain confidential.

To ensure that you receive the most appropriate accommodation based on your needs, contact the instructor as early as possible in the quarter (preferably within the first week of class), and make sure that you have contacted the Center for Students with Disabilities (CSD) at:

Student Center, LPC, Suite #370

Phone number: (773)325.1677

Fax: (773)325.3720

TTY: (773)325.7296

SE 554: Enterprise Component Architecture

Syllabus

Attendance: Students are expected to attend each class and to remain for the duration. Coming 15 minutes late or leaving 15 minutes early constitutes an absence for the student. The overall grade for participation drops one-third after any absence. Three absences for any reason, whether excused or not, may constitute failure for the course.

Class Discussion: Student participation in class discussions will be measured in two ways. First, students are highly encouraged to ask questions and offer comments relevant to the day's topic. Participation allows the instructor to "hear" the student's voice when grading papers. Secondly, students will be called upon by the instructor to offer comments related to the reading assignments. Students must keep up with the reading to participate in class discussion.

Attitude: A professional and academic attitude is expected throughout this course. Measurable examples of non-academic or unprofessional attitude include but are not limited to: talking to others when the instructor is speaking, mocking another's opinion, cell phones ringing, emailing, texting or using the internet whether on a phone or computer. If any issues arise a student may be asked to leave the classroom. The professor will work with the Dean of Students Office to navigate such student issues.

Civil Discourse: DePaul University is a community that thrives on open discourse that challenges students, both intellectually and personally, to be [Socially Responsible Leaders](#). It is the expectation that all dialogue in this course is civil and respectful of the dignity of each student. Any instances of disrespect or hostility can jeopardize a student's ability to be successful in the course. The professor will partner with the Dean of Students Office to assist in managing such issues.

Cell Phones/On Call: If you bring a cell phone to class, it must be off or set to a silent mode. Should you need to answer a call during class, students must leave the room in an undistruptive manner. Out of respect to fellow students and the professor, texting is never allowable in class. If you are required to be on call as part of your job, please advise me at the start of the course.
