Course Description

This class will focus on storyboarding and developing ideas as key pre-production tools for narrative animation, film, and gaming projects. The lectures, class work, and assignments will help students to expand their own cinematic drawing techniques, and help them to develop clear and dynamic stories for the screen. A variety of live-action and animated films and professional storyboards will be analyzed in class. Students will develop their personal style of boarding through a series of exercises and assignments. They will complete a short final animatic - a comprehensive pre-production blueprint for a project of their own choice.

Learning Goals

- Produce weekly Storyboard assignments, apply the principles covered each week, & submit to D2L on time
- Learn the vocabulary of film language, types of shots, transitions, and narrative structure
- Apply basic principles of character staging, shot progression, camera angles, lighting tones, & camera moves with in-class exercises & assignments
- Create a series of hand-drawn storyboards demonstrating knowledge of sequential narration with accurate perspective and placement of characters
- Practice visual methods of expressing character attitudes and acting that relate to story telling

Learning Outcomes

- Understand conventional cinematic structure of shot progression, staging, and screen direction
- Compose visually dynamic shots, with good lighting, showing cinematic depth
- Create character-driven storytelling with convincing character attitudes and acting that visually support the narrative
- Apply all principles of storyboarding into a clear blueprint for an animated film, in which all visual aspects are working together

Textbooks & Printed Resources *(all are recommended, **not required**):*

- *Dream Worlds: Production Design for Animation*, by Hans Baker
- *Prepare to Board!* by Nancy Beiman.

For BFA Animation Students in Storyboarding & Character Design Concentration, I recommend:

- *Drawing from Life*, by George Bridgeman (pdf references available under D2L Content)

Software Used

Adobe Photoshop (you can quickly learn enough basics for this class; use the free tutorials on the Lynda.com site - access w/DePaul Campus Connect).

Prerequisite: ANI 201, & some Drawing Experience

Life Drawing (ART 118) is normally required. If you have not taken college-level life drawing classes, expect to spend additional time on all assignments.

Note* Focus of class is on staging and shot progression; please use your camera phones to shoot character poses for reference. BFA students should expect to work on improving their figure drawing.

Grading: Approximate numbers - may change

- 76 % = Weekly Storyboard Assignments
 - 2 to 4% = Quizzes on Terms & Concepts
 - 4 % = Download/View my Feedback Sketches on your assignments
 - 6 % = View assigned Demos during first 3 weeks, & Videos when noted
 - 8 % = Attend Class
 - 4 to 6% = Participation (if you miss a class, you do not receive automatic points)
-
- 100% = Total Grade
- *Final Grades follow the Standard DePaul Grading Policy:* A = 100-93, A- = 92-90, B+ = 89-88, B = 87-83, B- = 82-80, C+ = 79-78, C = 77-73, C- = 72- 70, D+ = 69-68, D = 67-63, D- = 62-60, F = 59-0.

Assignments

Drawing skills are helpful but not essential. You will be expected to draw, but you may also trace photos or any references. Important to develop skills in **staging characters**. Will explain on specific assignments.

Submit storyboard assignments as **one single Photoshop file**; must see entire board when I open it. Do not submit separate files or “artboards.” Do not ask me to open or close layers during critique.

You must learn to import/export with Photoshop.

- Normally do not accept jpeg camera photos of hand-drawn boards.
- If you submit jpeg files of your storyboard, you must figure out how to **combine them onto a single page**.
- If you submit multiple pdf files I will skip over them during critique – it simply takes too long!
- Do not take a low-quality photo with your I-phone! I will scream! Then I will skip over it!

Every weekly assignment has specific criteria listed in the submission folder. Please **apply the weekly storyboard principles we cover**. Grades will be lowered significantly if major criteria is not applied on storyboards.

Important: Use only this aspect ratio for all storyboards: 1:1.78 (for example, a 9 x 16 tv screen). You may not use squares, or split screens, or any free-form framing as in comics. Cinema is a fixed screen size.

Changes to Syllabus

This syllabus is subject to change as necessary during the quarter. If a change occurs, it will be thoroughly addressed during class, posted under Announcements in D2L and sent via email.

Online Course Evaluations

Evaluations are a way for students to provide valuable feedback regarding their instructor and the course. Detailed feedback will enable the instructor to continuously tailor teaching methods and course content to meet the learning goals of the course and the academic needs of the students. They are a requirement of the course and are key to continue to provide you with the highest quality of teaching. The evaluations are anonymous; the instructor and administration do not track who entered what responses. A program is used to check if the student completed the evaluations, but the evaluation is completely separate from the student's identity. Since 100% participation is our goal, students are sent periodic reminders over three weeks. Students do not receive reminders once they complete the evaluation. Please see <https://resources.depaul.edu/teaching-commons/teaching/Pages/online-teaching-evaluations.aspx> for additional information.

Academic Integrity and Plagiarism

This course will be subject to the university's academic integrity policy. More information can be found at <https://resources.depaul.edu/teaching-commons/teaching/academic-integrity/Pages/default.aspx>.

Academic Policies

All students are required to manage their class schedules each term in accordance with the deadlines for enrolling and withdrawing as indicated in the [University Academic Calendar](#). Information on enrollment, withdrawal, grading and incompletes can be found at: <http://www.cdm.depaul.edu/Current%20Students/Pages/PoliciesandProcedures.aspx>

Incomplete Grades (Revised)

An incomplete grade is a special, temporary grade that may be assigned by an instructor when unforeseeable circumstances prevent a student from completing course requirements by the end of the term and when otherwise the student had a record of satisfactory progress in the course. All incomplete requests must be approved by the instructor of the course and a CDM Associate Dean. Only exceptions cases will receive such approval. Information about the Incomplete Grades policy can be found at <http://www.cdm.depaul.edu/Current%20Students/Pages/Grading-Policies.aspx>

Students with Disabilities

Students seeking disability-related accommodations are required to register with DePaul's Center for Students with Disabilities (CSD) enabling them to access accommodations and support services to assist with their success. There are two office locations:

- Loop Campus – Lewis Center #1420 – (312) 362-8002
- Lincoln Park Campus – Student Center #370 – (773) 325-1677

Students who register with the Center for Students with Disabilities are also invited to contact Dr. Gergory Moorhead, Director of the Center, privately to discuss how he may assist in facilitating the accommodations to be used in a course. This is best done early in the term. The conversation will remain confidential to the extent possible.

Please see <https://offices.depaul.edu/student-affairs/about/departments/Pages/csd.aspx> for Services and Contact Information.

Proctored exams for OL courses (Not applicable per Spring Qtr Structure)

If you are an online learning student living in the Chicagoland area (within 30 miles of Chicago), you will need to come to one of DePaul's campuses to take an exam. Online learning students outside of the Chicagoland area are required to locate a proctor at a local library, college or university. You will need to take the exam within the window your instructor gives. Students should examine the course syllabus to find exam dates and the instructor's policy on make-up exams. Detailed information on proctored exams for online learning students can be found at <https://www.cdm.depaul.edu/onlinelearning/Pages/Exams.aspx>

Online office hours for OL courses

Faculty should be accessible to online students via phone, email and/or Zoom.

Course Policies as Suggested by the Dean of Students Office

Attendance

Students are expected to attend each class and to remain for the duration. Coming 15 minutes late or leaving 15 minutes early constitutes an absence for the student. No deduction for 2 absences. If you miss 3 classes: -3 points; miss 4: -8 points. Missing 5 or more will likely result in failure. Students are required to attend and participate in critiques.

Class Participation & Critiques

I want to hear your input on the weekly assignments during class critiques. Participation allows the instructor to “hear” the student’s voice. Students must keep up with the weekly terminology and material. It is important to use these professional terms when discussing visual art. Students are encouraged to ask questions related to the weekly topics.

The participation grade also includes downloading the instructor’s input sketches and notes attached to submissions. View these within a few days of receiving the grade; apply this input to all future assignments.

Final participation grade is based on in-class work, active involvement with critiques, and attending classes.

Attitude

A professional and academic attitude is expected throughout this course. Measurable examples of non-academic or unprofessional attitude include but are not limited to: talking to others when the instructor is speaking, mocking another’s opinion, cell phones ringing, emailing, texting or using the internet whether on a phone or computer. If any issues arise a student may be asked to leave the classroom. The professor will work with the Dean of Students Office to navigate such student issues.

Civil Discourse

DePaul University is a community that thrives on open discourse that challenges students, both intellectually and personally, to be Socially Responsible Leaders. It is the expectation that all dialogue in this course is civil and respectful of the dignity of each student. Any instances of disrespect or hostility can jeopardize a student’s ability to be successful in the course. The professor will partner with the Dean of Students Office to assist in managing such issues.

Cell Phones/On Call

If you bring a cell phone to class, it must be off or set to a silent mode. Should you need to answer a call during class, students must leave the room in an undistruptive manner. Out of respect to fellow students and the professor, texting is never allowable in class. If you are required to be on call as part of your job, please advise me at the start of the course.
